LOCATION: Nanyuki, Kenya

ADDRESS: 1213-10400 Nanyuki

PROFILE

My career in Electrical and Electronics Engineering (power option) has equipped me with special skills in managing complex multicultural situations. I possess expertise in strategic forward-planning and managing constrained resources such as time, finances, and space. In my previous roles, I have demonstrated leadership skills through effective planning, meeting deadlines, and proactive problem-solving. Additionally, my strong analytical skills and proficiency in English and Kiswahili enable me to negotiate and reconcile diverse national approaches to common problems.

KEY SUCCESS VALUE

I am time-conscious, responsible, a team player, and result-oriented, with the ability to work independently or collaboratively in any environment.

CAREER OBJECTIVE

Dedicated and experienced Electrical Engineer with a strong background in electrical installations, CCTV installations, motor installation/rewinding, and solar installations. Seeking a challenging position to leverage my skills and expertise in contributing to the success of a dynamic organization. Additionally, I aim to be an aggressive, responsible, and resourceful employee dedicated to adding value for the organization, colleagues, and the community.
